

Cards

A card in Bootstrap 5 is a bordered box with some padding around its content. It includes options for headers, footers, content, colors, etc.

John Doe

Some example text some example text. John Doe is an architect and engineer

Basic Card

A basic card is created with the `.card` class, and content inside the card has a `.card-body` class:

Basic card

Example

```
<div class="card">  
  <div class="card-body">Basic card</div>  
</div>
```

Header and Footer

Header

Content

Footer

The `.card-header` class adds a heading to the card and the `.card-footer` class adds a footer to the card:

Example

```
<div class="card">  
  <div class="card-header">Header</div>  
  <div class="card-body">Content</div>  
  <div class="card-footer">Footer</div>  
</div>
```

Contextual Cards

To add a background color the card, use contextual classes (`.bg-primary` , `.bg-success` , `.bg-info` , `.bg-warning` , `.bg-danger` , `.bg-secondary` , `.bg-dark` and `.bg-light` .

Example

Basic card

Primary card

Success card

Info card

Warning card

Danger card

Secondary card

Titles, text, and links

Card title

Some example text. Some example text.

[Card link](#) [Another link](#)

Use `.card-title` to add card titles to any heading element. The `.card-text` class is used to remove bottom margins for a `<p>` element if it is the last child (or the only one) inside `.card-body`. The `.card-link` class adds a blue color to any link, and a hover effect.

Example

```
<div class="card">
  <div class="card-body">
    <h4 class="card-title">Card title</h4>
    <p class="card-text">Some example text. Some example text.</p>
    <a href="#" class="card-link">Card link</a>
    <a href="#" class="card-link">Another link</a>
  </div>
</div>
```

Card Images

John Doe

Some example text some example text.
John Doe is an architect and engineer

Jane Doe

Some example text some example text.
Jane Doe is an architect and engineer

[See Profile](#)

Add `.card-img-top` or `.card-img-bottom` to an `` to place the image at the top or at the bottom inside the card. Note that we have added the image outside of the `.card-body` to span the entire width:

Card Image Overlays

John Doe

Some example text some example text. Some example text
some example text. Some example text some example text.
Some example text some example text.
